RE: Rule M-7, Inspection for Interim  
Reclamation and Resuspension of  
the Hillside Mine Complex  
ACT/037/015  
San Juan County, Utah

Dear Mr. Roberts:

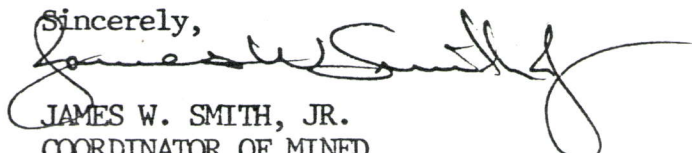

The information the Division has received in your letter of July 27, 1983 appears to adequately satisfy the major concerns listed during the inspection of the Hillside Mine complex on June 28, 1983. Although two items are lacking at this time, an additional two year period of suspension is approved pursuant to conditions of this letter being satisfied.

1. A topographic location map and summary of current site conditions status is required to be submitted for the Maybe Portal within three months.
2. Notice of the resolution of the current ownership difficulties between Energy Fuels, Minerals West and Monticello Minerals and Mining Company should be supplied at the earliest possible date.

The above conditions will be in effect upon your receipt of this letter. If you have any questions, please call our office immediately.

Inspection of the work performed on-site will await the next Division field trip to the area. Thank you for your attention to the situation.

Sincerely,

  
JAMES W. SMITH, JR.  
COORDINATOR OF MINED  
LAND DEVELOPMENT
